Experience

IT Support Specialist May 2024 - July 2026

Sabbioni *Remote*

- Provided Tier 1/Tier 2 remote technical support for 25+ endpoints, managing 20+ weekly incidents and service requests in ServiceNow with an 85% first-contact resolution rate.
- Resolved 80% of routine issues within 30 minutes via RDP and Quick Assist, troubleshooting Windows OS, hardware, printers, POS peripherals, and network connectivity.
- Maintained operational reliability for business-critical POS systems managing 700+ items through proactive troubleshooting, configuration management, and vendor coordination.
- Conducted root-cause analysis on recurring incidents and collaborated with vendors to resolve complex issues; authored 15+ knowledge base articles to standardize troubleshooting and reduce ticket volume.
- Administered Microsoft 365 (Exchange Online, Teams, OneDrive) and executed user lifecycle management—including onboarding, offboarding, and access requests—across Active Directory and Entra ID.
- Executed 10–15 monthly configuration changes, including Windows device setup, software deployment, hardware lifecycle management, and IT asset inventory tracking.

Projects

Cloud Identity & Access Governance Lab | *Entra ID, Intune, Microsoft Graph API, OAuth 2.0* May 2026

- Developed 14 modular Python scripts using Microsoft Graph REST API and OAuth 2.0 to automate Microsoft 365/Entra ID user provisioning, offboarding, and Intune-targeted RBAC group assignments.
- Engineered identity governance and license audit pipelines using Python and Pandas, processing 25 test accounts and auditing user access, account status, and Microsoft 365/Intune license allocations.

Azure & Active Directory SOC Lab | *Wazuh SIEM, Shuffle SOAR, MITRE ATT&CK, Sysmon* August 2026

- Built a 3-VM Azure SOC lab integrating Windows Server Active Directory, Sysmon, and Wazuh SIEM; analyzed 480+ security events, investigated simulated brute-force attacks, and triaged 7 CVE vulnerability findings.
- Developed and validated custom Wazuh detection rules and an 8-stage Shuffle SOAR pipeline with 11 Python automation utilities, integrating MITRE ATT&CK simulations, VirusTotal/AbuseIPDB IOC enrichment, Slack alerting, and analyst-approved Windows Firewall containment.

AWS Serverless Infrastructure & CI/CD Pipeline | *Terraform, AWS Lambda, DynamoDB* January 2026

- Provisioned AWS serverless infrastructure using Terraform (IaC), S3, CloudFront, API Gateway, Lambda, and DynamoDB, implementing HTTPS, least-privilege IAM, and race-condition-safe database updates across 100 concurrent test requests.
- Developed a Python-based serverless REST API and GitHub Actions CI/CD pipeline automating S3 deployments and CloudFront cache invalidations on commit, completing 20 successful test deployments in under 3 minutes each.

Technical Skills

Systems Administration & Identity: Windows 10/11, Windows Server, macOS, Linux, Active Directory (AD DS/ADUC), Entra ID, Microsoft 365, Exchange Online, Intune, IAM, MFA/SSO, RBAC, GPO, BitLocker.
Networking & IT Ops: TCP/IP, DNS, DHCP, VLANs, VPN, RDP, Quick Assist, ServiceNow, ITIL 4, incident/change management, SLA management, root cause analysis.
Cloud Infrastructure & Automation: Azure, AWS, Terraform, PowerShell, Python, Bash, Microsoft Graph API, REST APIs, OAuth 2.0, GitHub Actions, CI/CD, AWS Lambda, S3, DynamoDB, SQL.
Cybersecurity & Monitoring: Wazuh SIEM, Sysmon, Shuffle SOAR, log analysis, alert triage, File Integrity Monitoring (FIM), vulnerability management, incident response, CIS Benchmarks, security hardening, MITRE ATT&CK, system monitoring.

Certifications

CompTIA: Security+, Network+, A+, Project+ | AWS: Certified Cloud Practitioner | ITIL 4 Foundation | LPI Linux Essentials | Stackable: CSIS, CIOS:

Education

Western Governors University Salt Lake City, UT

B.S. in Information Technology *September 2022 - June 2026*
